Mohammed **Abed**

Software Developer | Android & Backend (Laravel/Node.js) | WordPress

TECH SKILLS

Languages: Kotlin · Java · PHP · JavaScript
Mobile / Frameworks: Jetpack Compose · Android SDK · Coroutines · StateFlow · Retrofit · OkHttp · Koin · Coil · DataStore · Navigation Compose
Backend: Laravel · Node.js · Express.js · REST APIs · JWT · Eloquent ORM
Databases: MySQL · PostgreSQL · SQLite · MongoDB
Architecture: Clean Architecture · MVVM · MVC
Tools & DevOps: Git · GitHub · GitLab · Android Studio · VS Code

PROJECTS

Luqta – Android E-Commerce App – [GitHub](#)

Android Engineer | Kotlin, Jetpack Compose, Clean Architecture, Koin

- Designed and implemented a modular Android client using Clean + MVVM architecture to support scalable feature development.
- Built secure authentication flow using Android Keystore + AES-based token storage.
- Structured networking layer using Retrofit/OkHttp with dependency injection (Koin) and managed UI state using StateFlow + ViewModel.

Volunteer Management System – Laravel Admin Dashboard – [GitHub](#)

Backend Developer | Laravel, RBAC

- Developed role-based admin dashboard to manage volunteers, assignments, and locations.
- Implemented secure authentication and modular CRUD panels for maintainable operations.
- Organized backend logic to support scalable task management workflows.

Expense Tracker API – Node.js – [GitHub](#)

Backend Developer | Node.js, Express, MongoDB

- Built RESTful API with JWT-based authentication for user and expense management.
- Structured codebase into controllers, middleware, and validators to enforce separation of concerns.
- Implemented input validation and standardized error responses.

EDUCATION

BSc in Software Development – Faculty of IT

Islamic University of Gaza (2021 - 2025)

Technical High School – Mobile Apps Development

Soaad Al-Sabbah Secondary School (2019 - 2021)

HONORS &
AWARDS

Qaddumi Foundation Scholarship | 2021

Granted for academic excellence (97.6% high school GPA), supporting my undergraduate studies.

CERTIFICATES

Meta Android Developer – Coursera (2024)

Internet of Things and Artificial Intelligence – Digital Academy for Scientific Innovation (2023)

PROFESSIONAL
TRAINING

AWS 1: Intro to Cloud Computing – Manara Tech (2025)

System Design and Architecture – Manara Tech (2025)

PHP Bootcamp – Gaza Sky Geeks (2023)

Freelancing Camp – Gaza Sky Geeks (2022)

WORK
EXPERIENCE

Freelance Web and Mobile Developer – Online | Jun. 2023 – Present

- Developing Laravel backend systems.
- Implementing core e-commerce features and localization support.
- Designing and preparing system architecture suitable for the upcoming frontend to be developed and integrated.
- Developing and maintaining multi-vendor e-commerce platforms using WordPress, WooCommerce, and Dokan.
- improving user experience with translation consistency for multilingual platforms.

Android Developer Intern – NewLine Tech, Gaza | Oct. 2021 – Jan. 2022

- Assisted in developing Android UI components using XML layouts.
- Contributed to debugging and performance testing of mobile features.
- Collaborated with senior developers in implementing production UI modules.
